The world asks, "Where is the way?" The future asks, "How will you change?" You ask yourself, "What should I do?"  
Fresh changes always begin with you. Where you have never gone before,  
**DYU is always there at the starting line.**

**See DYU  
and yourself  
standing  
ready to  
embark on  
a journey full  
of potential into  
this world.**

In 2006, the first School of Defense Technology established in Korea

In 2005, the first Railroad Department Bachelors' degree program established in Korea

In 2004, the first Public Officials Academy was established in Korea

In 1994, DYU was established

# 1994

Embarking on the first step toward

## “CHANGE”

In 2000, 2001, and 2002, selected as the best university in educational program reform for 3 consecutive years by the Ministry of Education and Human Resources Development

In 2011, Railroad Experts Academy was established

In 2010, a new facility for Public Officials Academy was opened

In 2007, selected as the best university in 3 areas in a general evaluation for universities by the Korean Council for University Education and won the Korean University Newspaper grand prize for employment support

# Greetings from the Founder

*DYU's past 20 years are marked with footsteps of growth in the whirlwind of change!  
If you look at the history of DYU, you will see numerous graduates, educators,  
and the dynamic changes in Korean education.*

The history of authentic education of Korea began in 1543 with Sosu Seowon, named by king Joongjong, the first scholarly private institution in Korea, located in Yeongju.

Inheriting 451 years of the traditional scholar's spirit, DYU opened its doors in 1994.

It was just the beginning to change this world when DYU was selected as the best university in 3 areas in a general evaluation for universities in just 6 years after its establishment.

The paradigm of universities started to change one by one when DYU established the Public Officials Academy. The past 20 years of remarkable changes and accomplishments have proved in DYU's best interest to provide authentic

education and to cultivate a workforce equipped with competency and character. And today, DYU continues its journey with a brand new attitude.

Fresh change in education that can satisfy students, parents, educators, society, industry, and our nation! The changes will speed up as you partner with DYU.

I would like to express my sincere gratitude to all the people always standing in the midst of such changes.

The Chairman of Hyeonam Hakwon, the Educational Foundation

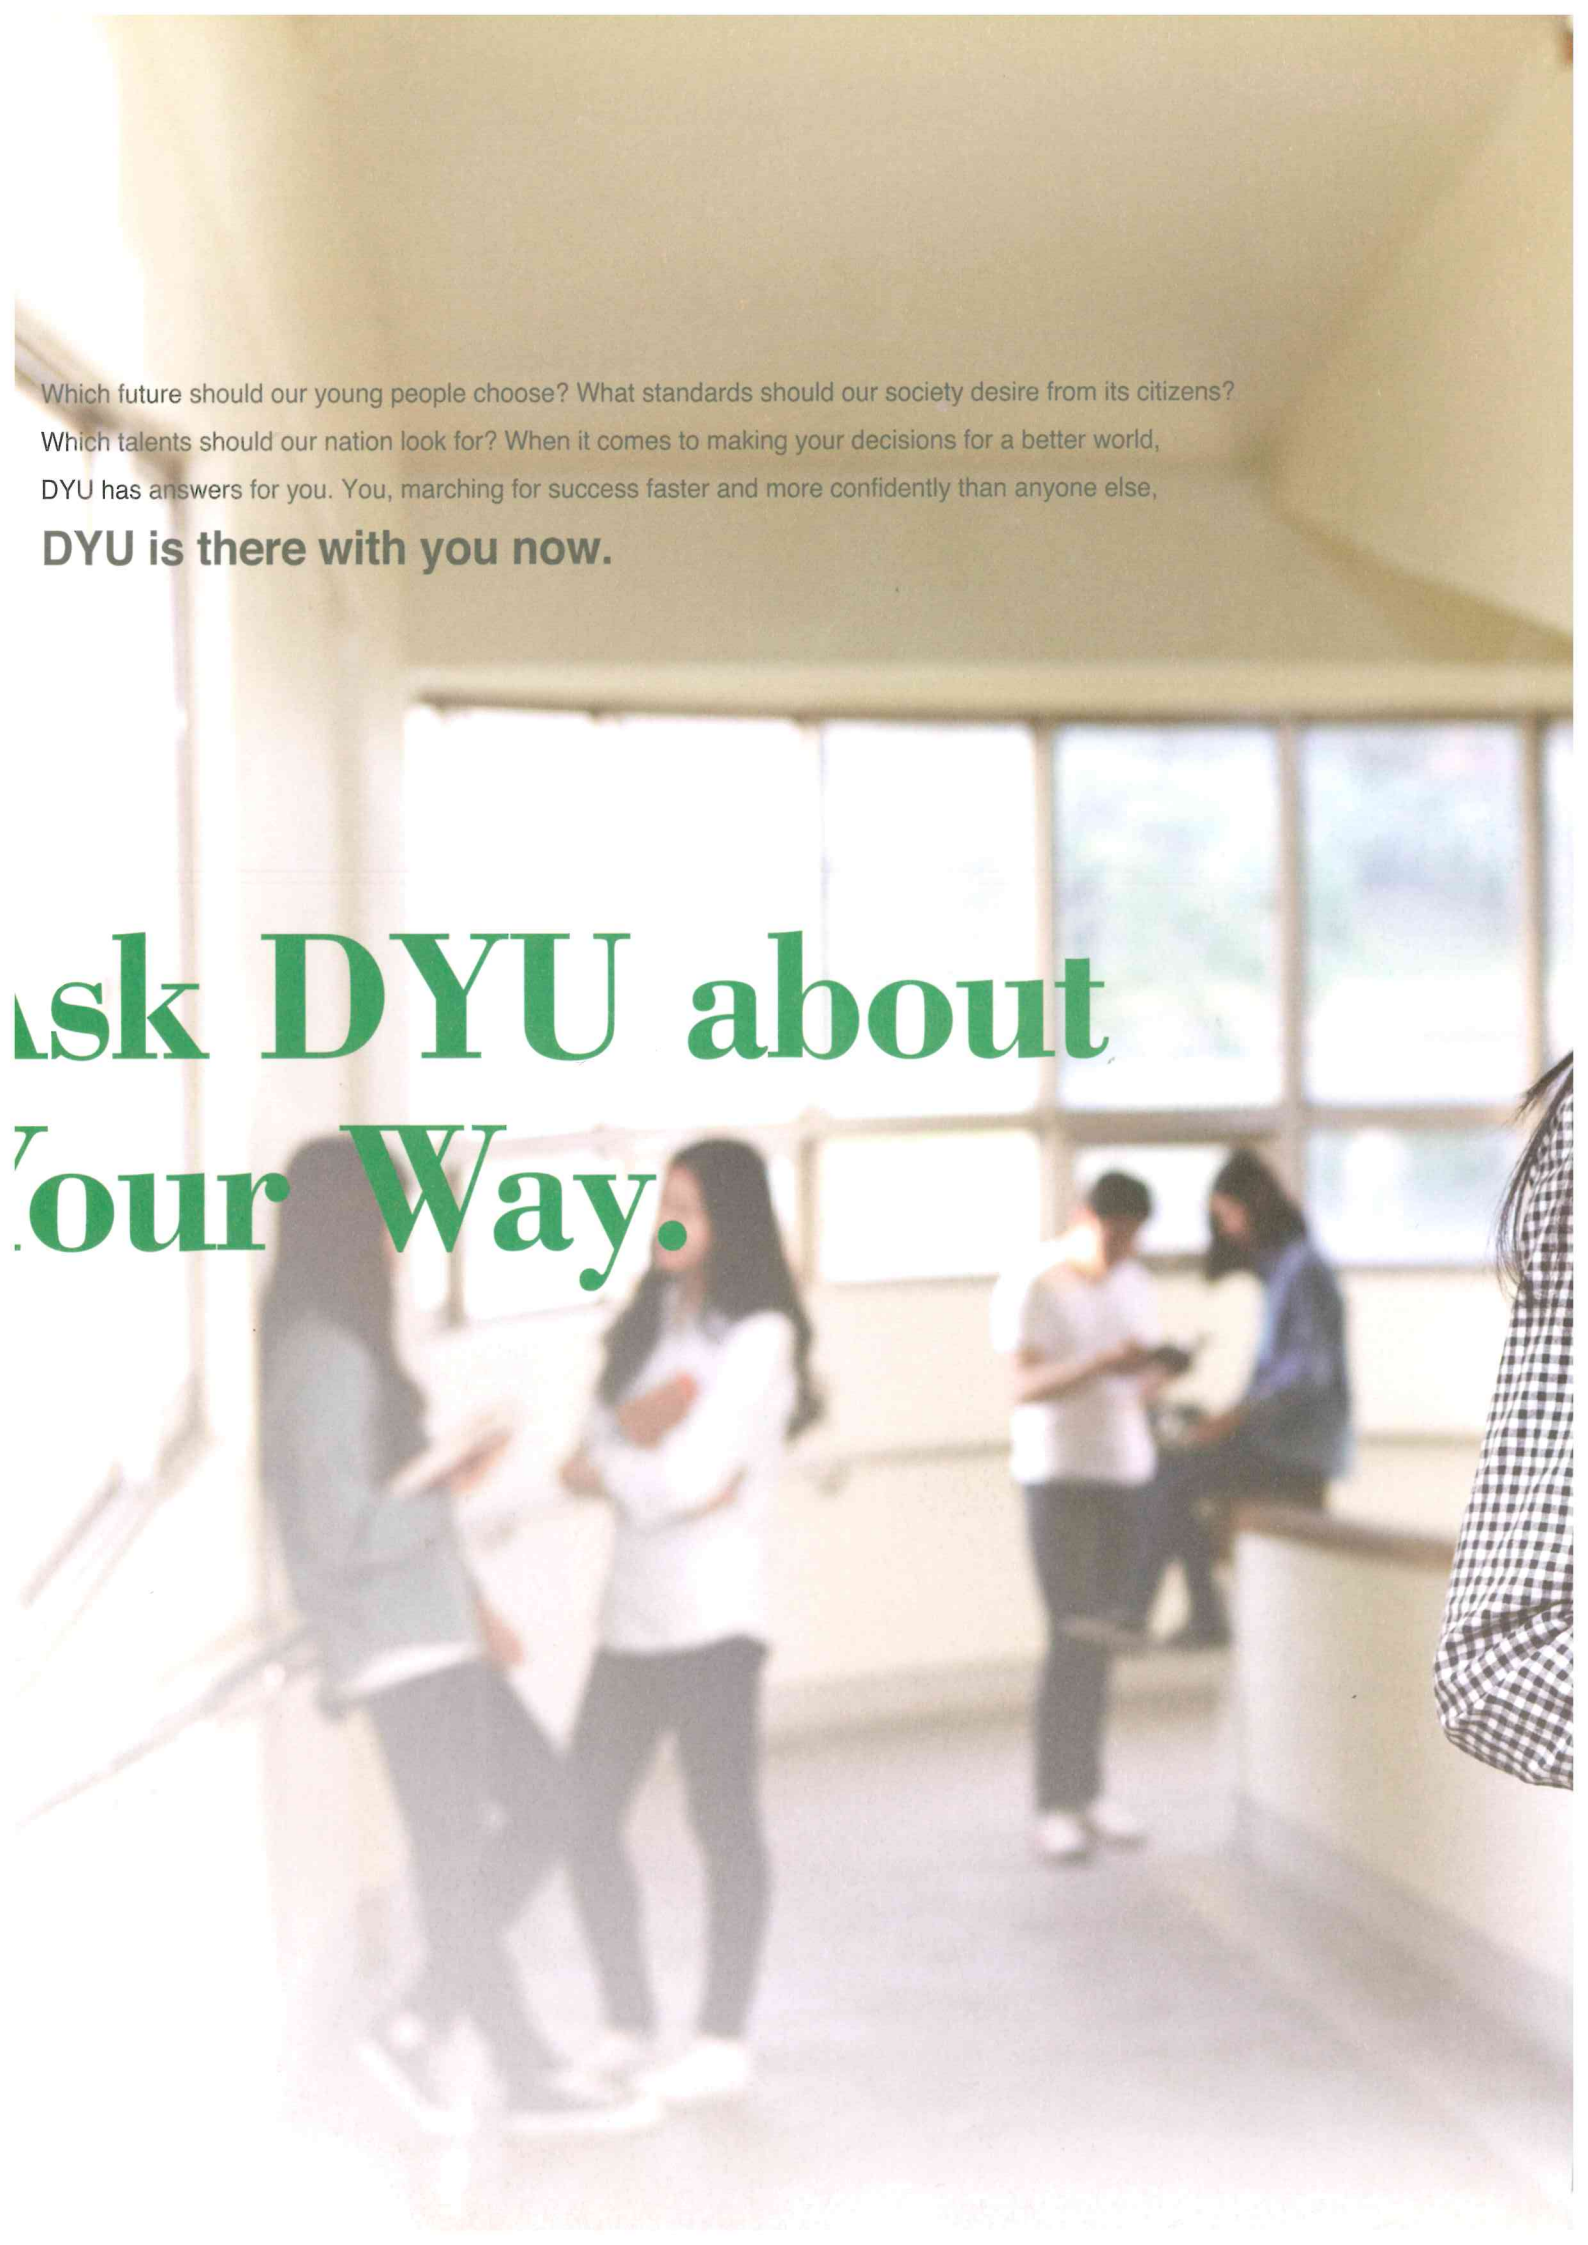

**Choi, Hyeon-Woo**

Which future should our young people choose? What standards should our society desire from its citizens?  
Which talents should our nation look for? When it comes to making your decisions for a better world,  
DYU has answers for you. You, marching for success faster and more confidently than anyone else,  
**DYU is there with you now.**

**Ask DYU about  
Your Way.**

A photograph of a young man and a young woman standing together, smiling. The woman on the left has long dark hair and is wearing a black and white checkered shirt. She is holding a stack of books, including a prominent blue one. The man on the right has short dark hair and is wearing a light blue button-down shirt over a white t-shirt. He is holding a dark book. A green rectangular box with white text is overlaid on the right side of the image.

## Vision & Specialized Programs

# Dongyang's Vision

The Venue of Lifetime Education

Digital  
Seonbi  
Agora

The future of students, society, industry, and education in Korea begins with DYU's grand vision.

## Digital Seonbi Agora, DYU's Grand Vision

### Why Digital Seonbi Agora?

DYU operates with a practical education purpose to benefit the next generation.

We plan to contribute to our nation and society and to offer a stable future to our students.

Digital Seonbi means a talented man with virtue and professionalism.

### Can DYU's vision generate a competitive edge to our students and our nation?

DYU moves fast to upgrade its training programs and to provide professional faculty and high-tech infrastructure.

A competitive edge begins with practical education, technical ability, and character harmonizing with society.

Best leaders are those with good character.

DYU will cultivate lifetime competitiveness through our character and leadership building programs.

The vision of DYU is to be the power that can predict the future through a competitive edge of its students, industry, and our nation.

*Who makes a true leader in our time?*

*We help all DYU students become experts through our career oriented educational system!*

**Digital represents Expertise.**

The main component of  
DYU's competitiveness is that  
we are a career oriented  
educational institution.  
'Digital' as in Digital Seonbi  
means an expert.

For local community and our nation

**How are we going to develop the Specialized Education?**

DYU's colleges specialize in training for specific career fields, such as public services positions, national defense technicians, and railroad experts.

The field-based training programs conducted by a professional faculty groom our students as experts. In addition, we lead local communities, industry, and our nation by responding to current trends through various industrial academic collaborations.

For students and their education

**Do our students receive practical benefits?**

The main beneficiaries of our specialization strategy are our students. Our innovative training programs, that you may not find in other universities, professional faculty members, high-tech infrastructure, and financial support have touched our students' hearts. We cultivate professionalism and leadership in our students during their 4 years at DYU, which will help them to have a stable future.

The Power to Lead an Organization

**Seonbi is a leader.**

The powerful leadership  
learned through firsthand  
experiences!  
The power of good character  
is the strength of DYU,  
which you may not see  
elsewhere.

**What competitive edge does the Seonbi Culture give?**

Public institutions and enterprises are excited with the abilities of the graduates of Dongyang University.

They say our graduates are equipped with leadership quality.

We say the powerful leadership from competency and good character is what the future leaders should possess. And that is the Seonbi Culture, which gives a competitive edge to DYU.

The Amazing Power of Character Building Education

**How is character building education conducted?**

Our character building education emulates Seonbi Spirit of SosooSeowon which led our time 450 years ago.

The education programs consist of etiquette lectures conducted by public figures, Jipji Event for establishing respect between teachers and students, and the traditional coming of age celebration.

DYU students take pride in demonstrating leadership with clear goals!

*Confident Experts that Industry, Society, and our Nation Need!*

Higher education is similar to a rough cut of film.

A solid foundation means building expertise that no one can argue with.

Being an expert is the competitive edge for students, industry, and our nation.

The 4 years at DYU will make you an expert.

The future experts will make our nation,  
society and industry competitive.

Begin with DYU to build your life scenario  
with a solid foundation  
that can even overcome  
any obstacle.

Chair-professor, Dept. of Cinema & Theatre

Kim, Myeong-Gon

Where can the  
competitive edge be  
found?

# Specialized Programs

## Public Officials Academy, Korea's Best Educational Brand

*In 2009, DYU won the “Best University in producing government position related employment” by the Korea University Newspaper. This astonishing result came just 5 years after the establishment of Public Officials Academy. As the most practical educational brand in Korea, Public Officials Academy is constantly evolving.*

### The Dream of Our Students

#### **Public Services Positions, The most preferred jobs!**

What do our students really desire? Public Official Academy was founded in 2004 from that very question. A total of 640,000 people in the last 3 years expressed their desire to prepare for the public services examinations because of the stability of the position. Where can you have practical training programs to get ready for the public services examinations without giving up your major? Public Officials Academy has proven to be the one and only successful solution.

### The Dream of Our Nation

#### **Incorporating Public Officials Academy throughout the departments!**

The Public Official Academy training programs are the basis of cultivating public services positions from specialized departments, such as School of Railroad Experts, School of Public Administration and School of National Defense Technology. We aim for successful results in all public services examinations in Korea, such as civil services, police officials, level 7 / level 9 administrative position, technical position, civilian employee of military force, military officer and railroad corporation.

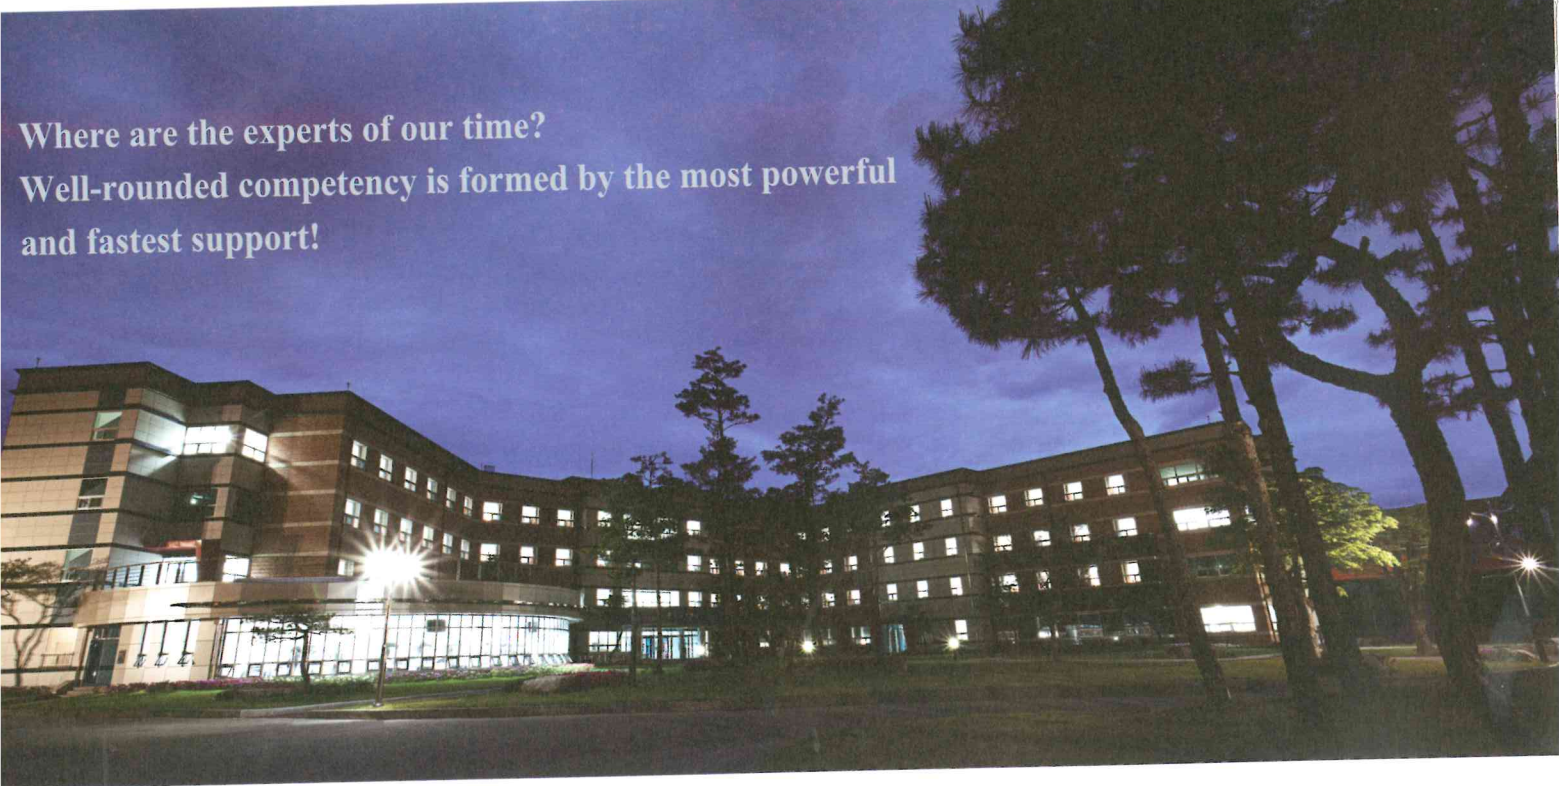

### The Dream of Dongyang University

#### **Helping both our students and our nation!**

Public Officials Academy is not operated solely for employment. Our students will grow confident as they proceed through our training programs. Our nation will welcome this new talented workforce from DYU, equipped with good character and professionalism. The future of Korea depends upon the future of Public Officials Academy at DYU.

Where are the experts of our time?  
Well-rounded competency is formed by the most powerful  
and fastest support!

## About 330 people dream of entering **Public Officials Academy** every year.

*It is rather natural at DYU as Public Officials Academy has generated nearly 250 graduates passing the public services examinations and becoming higher level 6 trainees in just 8 years of its history.*

### Intensive Training Fields

The core programs are split into public services divisions and public corporation divisions. The greatest advantage is that our students can prepare for the public services examinations without forfeiting a normal campus life.

Special Training Fields	Higher Level 5 Public Services Examination
Intensive Training Field 1	Level 7 / Level 9 Technical Position, Level 7 / Level 9 Administrative Position, Police Officer, Fire-fighting Officer, Railroad Corporation, Civilian Employee of Military Force (Technical Position)
Intensive Training Field 2	Government-operated Enterprise, National Assembly Secretariat, National Intelligence Service and more.

### Well-structured Professional Training Programs

Systematic training programs open throughout the year including seasonal vacations and our students can earn credits through participation in special lectures. Particularly, the curriculum that cultivates strong character needed for public services is considered a great advantage.

Training Programs	During semesters (General Education + Major), During Vacations (Special Lectures, Consigned Education Programs with well-known private institutions), Video Lecture
Character Training Programs	Special Speaking Engagements, featuring Public Services employees, graduates who have successfully passed the exams, experts, etc.; Character Training, focused on Citizen Loyalty, Ethics
Licensure and Certificate Programs	Certificates for bonus points (Railroad Field, Communication Information Processing Field, Office Management Field)
Operations	Faculty Pooling System, Lectures from well-known test prep institutions, Students' study groups

### Additional Special Scholarships granted for Public Officials School!

POA accepts around 330 students annually, which offers a generous opportunity for those who are interested. The special scholarship system allows additional support to encourage our students as they prep for examinations.

Beneficiaries	Candidates for Technical / Bar / Foreign Affairs / Administrative Examination, Semi-examination Group by Position, Candidates for General Public Servant and Higher level National examination
---------------	--

## Professional Training Programs that No One Else Ever Thought Of, School of Railroad Experts & School of Defense Technology

*The phrase 'the first in Korea' is not uncommon at DYU any more.*

*We built the first Bachelor's degree courses for Rail Road Experts and Defense Technology in Korea with a high standard of professionalism.*

### Business-oriented Practical Learning

#### ● Industry demanded on the Job Training Programs Allow Students Start work right away!

The School of Railroad Experts and the School of Defense Technology in at Dongyang University come into the spotlight not because it is they are the first in Korea but they are the best in Korea.

Intensive training programs allow our students to start work immediately. Our faculty who already have the field expertise and industry related experts conduct our programs so our students become experts faster than others.

### Government-subsidized Educational Infrastructure

#### ● Learn in the field!

Dongyang University is a specialized educational institution for railroad operators' licensure designated by the Minister of Land, Transport and Maritime Affairs.

Many people were surprised in 2011 at our built in simulation facility to start Railroad Operator's licensure.

Everyone anticipated highly qualified technicians since we started cooperating with the Defense Agency for Technology and Quality, the Headquarters of the Army, the Agency for Defense Development, the Army Logistics Command, and the Air Defense Artillery School.

The strength of Dongyang University comes from its educational infrastructure which prepares for 4 fruitful years for our students through industrial-academic collaborations and high-tech equipment.

### Students with clear Goals for the Future

#### ● Learning from our alumni!

The students in our specialized departments know which way to go.

The alumni who work as field professionals with much recognition in public services, military forces and enterprises!

They inspire our students to systematically work harder with clear future goals.

Our students aim for a 100% employment through our intensive and expedited training programs to be experts.

# The birthplace of Local and National Industrial Competitiveness

## Industrial-Academic Collaboration Programs

*DYU has industrial-academic collaborations with 183 institutions nationwide.*

*The competitiveness of local and national industry, including new technology and knowledge development, starts with Dongyang University.*

Business Creation and Development Support Center

Poong-gi Insam Festival

Poong-gi Silk

### Industrial-Academic Collaboration Group offers Fast Support!

Industrial-Academic Collaboration group, established in 2004, handles our school's entire government subsidized projects. It also supports the management of intellectual property for research performance, patent and technology promotion, transfer of technology and business development. The group now has close relationships in joint research, field practice and employment with 183 institutions including Seoul Metro, Seoul Metropolitan Rapid Transit Corporation, Korea Rural Community Corporation, Korea Transportation Safety Authority, Incheon International Airport Corporation, LH Corporation, Korea Railroad Corporation, and Korea Midland Power, and more.

### Affiliated Centers

#### Business Creation and Growth Support Center

Currently 11 businesses have moved into the center since its foundation in 2001. The center will be able to facilitate 45 units after the completion of its expansion project. It is designated as a Business Creation and Growth Support Center, specialized for convergence of agriculture, industry and commerce by the Small & Medium Business Administration. The center is now concentrating on supporting bio-oriental medicine and cultural tourism service for Confucianism and Buddhism, which complements the features of the northern Gyeongbuk province. It also supports a number of services in educational consulting, funding, equipment and intellectual property for the on site businesses.

#### Industrial-Academic Collaboration Center for Small & Medium Business

The center is operated on the basis of the relationship with the Small & Medium Business Administration, local governments, businesses and DYU. It concentrates on supporting the development of new technology and products, and common problematic technology to strengthen competitiveness of small and medium businesses. This will lead to the vitalization of the local community and the enhancement of industry's competitiveness.

### National Project Units

#### Yeongju Biological Resources Enhancement Project Unit

This is a part of the local industry promotion project organized by the Ministry of Knowledge Economy. Five institutions are now participating in the project under the management of Dongyang University. It targets purifying raw materials using eco-friendly agriculture for primary industry, satisfying consumer demands through strengthening stability and functionality for secondary industry, and premium branding of local industry.

#### Poong-gi Silk Branding Project Unit

This project was selected as the RIS new project in 2010. Local governments (Gyeongsangbuk-do and Yeongju-si), textile research institutes (Korea Textile Development Corporation and Korea Research Institute for Fashion Industry), Poong-gi Silk Development Council, and 3 manufacturers are participating in this project. It supports building an integrated network, a skilled workforce, technical development and marketing activities to promote Poong-gi Silk as a known brand in the world.

## Global Competitiveness partnering with Citizens of Other countries International Exchange Programs

*Dongyang University has moved forward in the world with its broad outlook.*

*Our specialized support programs will enable global cooperation beyond our domestic boundaries.*

### ● Globally Minded International Exchange Center

The International Exchange Center recruits and manages international student affairs. The center also supports overseas studies, language courses, and exchange programs with foreign industry, educational, and research institutions. Its range of work includes but is not limited to the following: exchange programs for professors and students, international joint research, and international cultural exchange. The international Exchange Council, a subsidiary institution, helps to develop international collaboration projects in North America, Europe, Asia and Southeast Asia.

### ● Diversified International Exchange Programs

The center promotes diverse exchange programs, such as academic, friendship, cultural, student, and education, targeting universities and cities in other countries.

#### **Exchange Student Programs**

Dongyang University students can earn credits by studying in our sister schools overseas. They can improve their language skills and broaden their perspectives of other cultures. The center has short and long term exchange programs for both students and professors.

#### **Language Course Training Programs**

The center provides opportunities to take language courses overseas in our sister schools for 4 weeks during semester breaks.

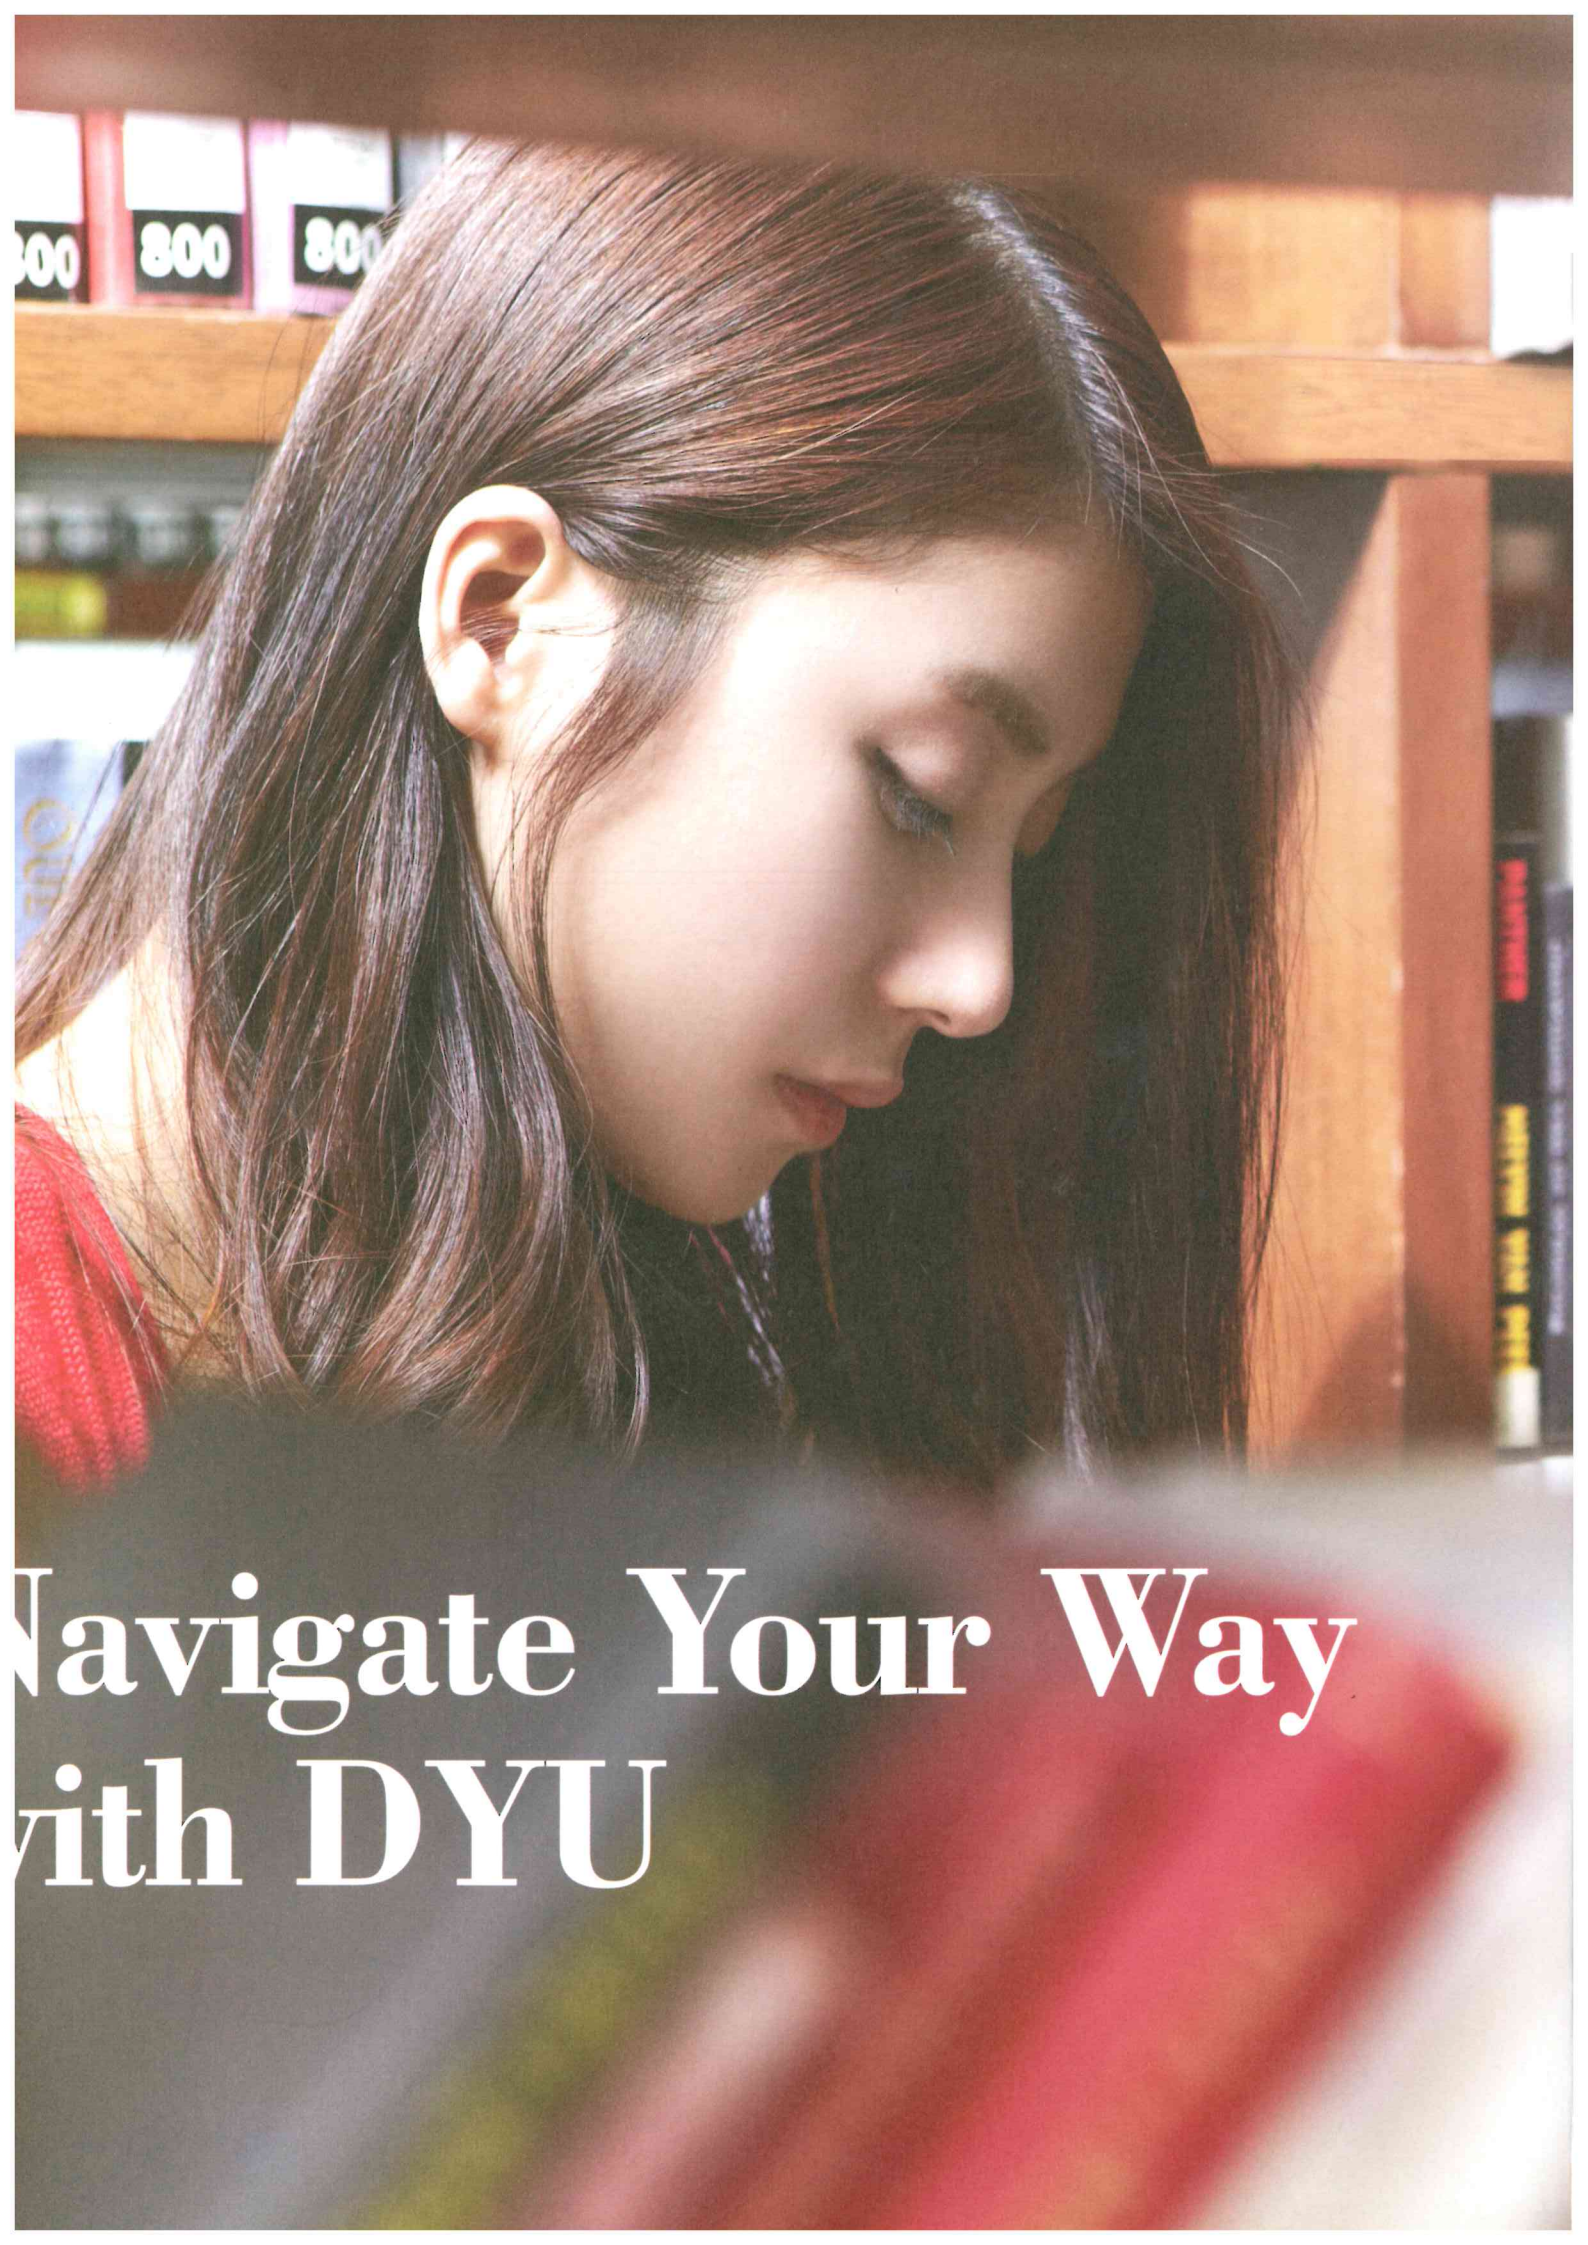

Participation in a program includes financial support and can earn up to 2 credits.

#### **International Student Programs**

DYU requires International students to live in the dormitory for their safety and to help them concentrate on their studies.

The following various programs are now enhancing the quality of education: Korea-China sisterhood relationship, faculty-student mentoring program, Korean cultural experience event, Korean speech contest and Korean language ability test.

A close-up, profile shot of a young woman with long, dark brown hair. She is looking down, her eyes closed or looking at something out of frame. She is wearing a red, textured sweater. The background is a library or bookstore, with wooden shelves and books visible. Some books have labels with the number '800'. The lighting is soft and warm, creating a calm and focused atmosphere.

Navigate Your Way  
with DYU

## Special Support System

How could we get a glimpse of the future of industry,  
society, our nation, and our students?

From our graduates who are following in the footsteps of experts,  
fast evolving professional training system and high-tech infrastructure,  
to dependable scholarship system  
which allows students to enjoy DYU's excellent education!

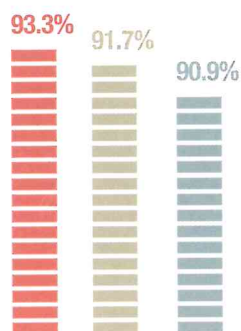

You can picture your promising future at DYU.  
DYU can get you to the future of education faster than anyone else.

**DYU is partnering with you now.**

# 100%

**The 100% employment does not mean our students' promising future.**

Top 3 Departments in Average Employment Rate for the Last 3 Years (2009-2011)

- Dept. of Early Childhood Education
- Dept. of Railroad Drive & Control
- Dept. of Cultural Properties E&C

Business Creation and Growth Support Center

International Exchange Center

ROTC

*DYU has impressive employment rates ranging from above the national average to 100% but more surprising than our employment rate is 'where our students were employed'*

## Careers & Future

### Specialized Employment Program

#### ● **'Where' you will be employed is important!**

Employment is the most significant mission for our students. This is not difficult with DYU as the whole school is evolving as a career oriented university. However, what matters more is 'where' you will be employed. Accept the challenge to find employment for a stable future! Our specialized training programs, such as Public Officials Academy, will enhance your chance to succeed.

### Active Employment Support Project

#### ● **The reason of high employment rate!**

Dongyang University was recognized by the Korea University Newspaper for our high employment rates.(University of Excellent Employment Rate in 2005, University of Excellent Job Support in 2007, University of Excellent Public Services employees Cultivation in 2009 and University of Excellent Job and Educational Ability in 2011) What is the competitive edge that has achieved high employment rates? The answer can be found from our active employment support project.

### Preferred throughout the nation

#### ● **More preferred by students in the greater Seoul area**

51% of our 1,300 freshmen are from the greater Seoul area. Our specialized training education, character building education, and outstanding employment rate are what attracted those students to DYU.

### Top University in university evaluation

#### ● **Excellent Employment Competitiveness!**

DYU was recognized as a regionally excellent performer in University Evaluation (JoongAng Ilbo Newspaper, 2007). In addition, we were selected as the best university by the Korean Council for University Education in 2007 in the following areas: Development strategy and vision, Education and community service, and Educational environment and support system. Our excellent educational system empowers our students in their quest for employment.

*Upon choosing DYU,  
your future has already changed.*

How can we get a glimpse of our future in our ever-changing society? Our alumni can show our students' future path to become professionals. Our specialized educational programs, which have evolved faster than any other schools, lead the future of industry. Our scholarship programs, with rich benefits, are brightening up the future of society. Our dynamic high-tech infrastructure and industrial-academic network are the doors to the desirable future of our nation. Be confidence in choosing DYU. Your future has already changed as you choose to navigate your way with DYU.

Professor of the Faculty of Liberal Arts

Jin, Jung-Gweon

**Where is your  
desirable future?**

A photograph of four young adults, two women and two men, standing outdoors and smiling. They are positioned in front of a modern building with a large, blue, geometric glass facade and red structural elements. The woman on the far left wears a red and white checkered shirt over a white top. The man next to her wears a black and white checkered shirt. The woman next to him wears a white t-shirt. The man on the far right wears a light blue button-down shirt over a white t-shirt. They are all wearing dark pants. The text 'DYU, Your Greatest Choice' is overlaid at the bottom in a white serif font.

DYU, Your Greatest  
Choice

*Are you still fantasizing about your future without concrete plans? Your dream can start coming true when you feel confident about your choice.*

'94 Class Lee, Byeong-Gil

'04 Class Cho, So-Young

'05 Class Wi, Jeong-Su

## Alumni Who Have Achieved Their Dreams through DYU

Yun, Jae-Wung / Graduated with Chemical & Biomolecular Engineering major / Working for the Ministry of Environment

### You can be confident in choosing DYU.

It is a great advantage to prepare for the public services examination without forfeiting your campus life. The competition rate of the public services examination might give you a murky concern. As for me, battling myself through fears was the hardest part. But with the encouragement from my professors and my friends was really uplifting to me whenever things became burdensome. These are the strongest merits of DYU. Your career goal does not have to be in public services to choose DYU. Have total confidence in your choice, DYU.

Lee, Byeong-Gil / Graduated with Information & Communication Engineering major / Working for the Cyber Terror Response Center of National Police Agency

### Confidence is your competitive edge,

There are many other ways to get into the public services field besides taking the tests. You could be employed through special recruitment if you are recognized as an expert in a certain field. It can happen to those who have a competitive edge and DYU is definitely the main source of such competitiveness. Working on various research projects with your fellow students is a great way to build your competitiveness. With DYU, you can have a special experience and gain a competitive edge which will help you achieve your dream.

Cho, So-Young / Graduated in Management & Tourism / Working for the Ministry of National Defense

### DYU, a home of my dream

DYU is where my dream was cultivated. A 'You Can' attitude is implemented in you through mutual encouragements, which can be critical nourishment in your life. We should put our best efforts because we accomplish just as much as we desire and try. If you wish to be in the public services field, listen to the people who are already in that field to be inspired instead of just fantasizing about it. Public services require a mission to pursue better lives for our fellow citizens. Mulling over your reasons to be in public services should be the very first step toward your dream.

Wi, Jeong-Su / Graduated with Railroad Management Information major / Working for Vitzrosys Co., Ltd.

### Enjoy your 4 years at DYU

The educational programs at DYU are really specialized. Among them, What I regard as the best support system is found in the faculty with rich field experiences, industry field training, academic club activities through Train Research Mass (TRM), and campus study groups. The counseling with your professors will be the pillar of hope for you. Living in a dormitory will help you with studies through routines and discipline. Relax and enjoy your campus life and just do your best. There is no need to feel daunted with finding employment at DYU.

# Scholarship & Support System

# 12.6%

## Special Scholarship System, a delightful source of your progress

*What if more students are granted scholarships? What if tuition actually went down?  
Our scholarship system becomes a reliable supporter to our students and their parents,  
reassuring our students to just concentrate on their studies.*

### Ranked 5th in Average Student Scholarships

DYU was reported in Chosun Ilbo Newspaper in 2007 for the size of scholarship granted per student, following four other institutions, POSTECH, Kyoungwoon University, Korea University, and Yonsei University. Actually how much we allot for scholarship is not important. Scholarships get meaningful truly when they help students become experts in their fields. Along with various scholarship programs, we also actively support our students financially through national scholarship projects and the student loan system.

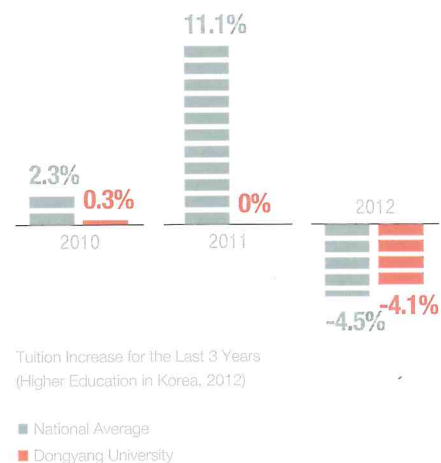

### Actual tuition increase, -12.6%

DYU froze our tuition while others raised theirs. We reduced our tuition by 4.1% in 2012. As we secured our scholarship grants up to the total amount of 590 million Won, the actual tuition reduction rate fell to 12.6%. Our tuition reduction efforts bring an effect of granting scholarship to all of our students.

### Addition of special scholarship Programs for Public Officials Academy!

DYU's extensive scholarship programs feature additional special scholarship for POA as well as basic scholarships, such as a 4 year tuition exemption.

## Perfect Support System for Education

Dormitory of Public Officials Academy

Fitness Center

Gymnasium

*The dormitory at DYU is well facilitated to accommodate 2,300 students. Our diverse faculty provides personalized care and unique educational support system in Korea. You can rely on DYU.*

### The dormitory life of 2,300 students

2,300 students reside in our 5 top notch dormitories with amenities including internet access and our fitness center. All freshmen are required to live in the dormitories. During the semesters, DYU provides diverse special lectures on topics, such as employment, language skills, computer skills, public services exam information, and club activities. Convenient facilities and perfect support system are the competitive edge of our dormitory.

### Ranked 16th in Student to Professor Ratio

We believe a competent faculty is a must for professional competitiveness. 30 prominent professors in every field, including Kim, Myeong Gon, the Chair professor, former Minister of Culture, were newly appointed since the second semester of 2011. Our students benefit from the support of our faculty rich with theoretical knowledge and practical experience! The 16th best ratio in students per professor brightens the future of our students as they take another step closer to becoming professionals.

## Our High-tech infrastructure keeps the whole Campus dynamic.

*Our high-tech infrastructure, including cutting edge research facilities, educational equipment, and labs enhance DYU's specialized programs. Our spacious and beautiful campus is our students' pride and helps to infuse good character.*

### ● High-tech Infrastructure for Live Education!

Educational systems and high-tech labs, such as the Industrial Technology Institute, are on our campus. Thanks to our high-tech infrastructure, ROTC commissions at least 30 elite officers every year.

**One of the 8 Most Beautiful Campuses in Korea** (Korea University Newspaper, 2007)

●  
**Convenient & Beautiful Campus**

DYU operates school buses and weekend commuting buses to major cities nationwide including the greater Seoul area. You can see our dedicated care throughout our campus as it was honored as one of the 8 most beautiful Campuses in Korea. Every corner of our campus reflects to facilitate a pleasant campus life for our students.

Many people have partnered with DYU in our 20 year history for our quest of authentic education.

Young generation, society, and our nation have joined us.

Education, future, trust, and dreams have been with us.

Now, begin with DYU to get closer to your goal with confidence.

**DYU is Partnering with You Now.**

**Departments  
&  
Career**

**Make Your Way  
with DYU**

# Departments & Career

*DYU's energetic and competent faculty with rich field experiences and on the job training facilities enhance the educational effects!*

## ● School of Public Administration

The school consists of two departments, Public Administration and Police Public Administration, which both are in high demand in the job market. To maximize the employment potential, we have established curriculums that inter-connect both departments efficiently. Our students can acquire various certificates for public services positions through our strategically designed curriculums and in return we garnered a higher employment rate in the public services sector. In addition, we have put our best effort to prepare our students with broaden perspectives to be compatible in both the private market and non-profit sectors.

**Potential Career Fields** – Administrative Agency, Public Enterprise (Public Corporation), Manufacturing, Financial Institution, Research Institution, Social Organization, Non-profit Organization, and more.

## ● Dept. of Architecture & Fire Administration

This is a field of study that cultivates technical administrative public servants of technical and administrative abilities, such as architectural and fire officers. This field was ranked as one of the top career fields that university students want to pursue. We offer industry oriented practical training programs and customized curriculums by contracting with the Gyeongbuk Fire Service Academy to prepare our students with professional knowledge and managerial ability. We also have educational programs for liberal studies and prep courses for the public servants examinations as well as special lectures to help our students to attain at least one license or certificate during their 4 years at DYU.

**Potential Career Fields** – Architectural Officer, Fire-fighting Officer, Public Corporation, Government-run Firm, General Construction Company, Professional Construction Company, Fire Facility Company, Fire Design and Supervision Company, Construction Supervision Company, Architectural Design Company, Construction Materials Company, Construction Institute, Construction Structure Company, Dangerous Object Manager, Fire Manager, and more.

### Dept. of Social Welfare

While employment is not a concern in the social welfare field, competency and a heart for human beings are the key elements to succeed in this field. Thus our students benefit from both systematic educational programs and field training and employment programs through cooperating with local agencies. Our programs become even livelier through a social welfare related public positions training program, domestic and overseas volunteer projects, and various club activities. Once our students complete our coursework and become competent as a social worker, they serve meaningful roles in various sectors of our society.

**Potential Career Fields** – Public Official in Charge of Social Welfare Sector in Administrative Institution, Volunteer Center, Elementary/Middle/High School, Military Social Welfare Worker, Social Insurance-related Institution, Public Utility Foundation, Volunteer Service Coordinator in Large Company, Corporate Social Welfare Foundation, Rehabilitation Coordinator, Sexual Violence Counselor, Child welfare Instructor, Youth welfare instructor, and more.

Museum

### Dept. of Cultural Properties E&C

A professional workforce related to national culture properties is in high demand. Its wide range of titles include, but is not limited to, researchers investigating cultural properties, curators preserving and displaying cultural discoveries, scholars studying history through cultural properties, professionals developing related industries utilizing cultural property knowledge, and so on. The core programs are cultural property study and archeology along with museology and conservation science. Exciting opportunities open to our students, such as studying overseas to enrich their learning experiences and working at excavation sites during semester breaks to help out with their tuition.

**Potential Career Fields** – Curator and Researcher in Government/Public/Private Museum, Public Official for Cultural Properties, Researcher in Excavation/Investigation Firm, Cultural Properties Repairing Technician, Media Journalist for Cultural Properties, PD, Cultural Heritage Commentator, Cultural Contents Development researcher, and more.

### School of Management & Tourism

The two main departments are Business Administration and Hotel Tourism Management. The programs focus on the practical field training through industrial-academic collaboration as well as theories and case studies. All the faculty members are young experts in the industry and doctoral degree holders in business administration and economics. Intensive language trainings are provided from instructors from U.S., China, and Japan as well as systematic computer skill training in exclusive computer labs for this school.

**Potential Career Fields** – Hotel, Travel Agent, Airline, Bank, Public Official, Public Corporation, Consulting Firm, Stock Firm, Department Store, Press, and more.

*A professional workforce, possessing comprehensive knowledge and thinking skills from DYU, is active as experts in industry, public institutions, and academic circles!*

#### **Dept. of Design Management**

One current hot topic in industry is design management! It is a current trend that graduates majored in design or business administration go back to school for post graduate courses. This department opened with a purpose to cultivate talented human resources with the foundation of planning and marketing, which can analyze marketplaces and customers. The department features vibrant and competent faculty members, its own venture firm, and a master's degree course. Many prize winning records have proven our students' creativity, originality, and ability to plan.

**Potential Career Fields** – Broadcasting, Advertising, Multimedia, Web Design, Publishing, Video Production, Design Dept. in Firm, Film Company, PR Dept., Cultural Contents Developer, Public Official for Culture, Cultural Contents Designer, Event Planning Expert, Cultural Tour Conductor, Performing Arts Planner and Producer, and more.

#### **Dept. of Fashion Design & Stylist**

The potential of this department is quite versatile. Our students will be groomed with sensitive fashion tastes and develop creative ability to penetrate the market trends. These qualities are learned through multifaceted practical programs, including the areas of fashion, cosmetics, fashion coordination, and hair styling. Our students experience various field training, such as fashion designing, fashion show planning, fashion coordination, hair styling, and cosmetics. Also they learn to appreciate both traditional and modern beauty through our own traditional handicraft Art Institute.

**Potential Career Fields** – Fashion design, Product development, Fashion coordination, Visual merchandising, Material design, Cosmetology, Broadcasting & entertainment, Video production, Instructor, and more.

#### **Dept. of Airline Secretary**

The high quality training is conducted by taking the Public Officials Academy as a model in our coursework of airline service and secretary. It is a must for our students to acquire work skills through field training programs and foreign languages skills, such as English, Chinese, and Japanese. Collaboration with domestic and foreign airlines and hotels has benefitted our students with a customized practical education. We also feature counseling oriented instruction regarding future career and acquiring certificates as well as character training via music and volunteer work.

**Potential Career Fields** – Flight attendant and/or office position in domestic or foreign airline, Cruise crew, Travel agency, Airport management corporation, Government immigration office, Domestic or overseas secretary position, Trading firm, Convention center, Hotel, Casino, Duty free shop, and more.

# Departments & Career

### Dept. of International Commerce & English

Pay scales these days are influenced by English proficiency. Our goal is to cultivate international commerce and management professionals with high proficiency in the English language. Our faculty is equipped with an innovated practical mindset as well as professional skills. Our practical programs feature native speaking instructors' lessons customized to students' level, a simple yet practical curriculum, overseas internship opportunities as well as character training focused on good manners.

**Potential Career Fields** – General Public Services, Ministry of Commerce, Industry and Energy, Trade Promotion Agency, Ministry of Foreign Affairs, KOTRA, Korea International Trade Association, Korea Chamber of Commerce and Industry, International Commerce Position in Local Government, Trading Firm, Overseas Corporation, Public Agency, Hotel, Travel and Leisure Industry, Financial Institution, Private Institute of International Commerce and Trade, and more.

### Dept. of Railroad Management Information

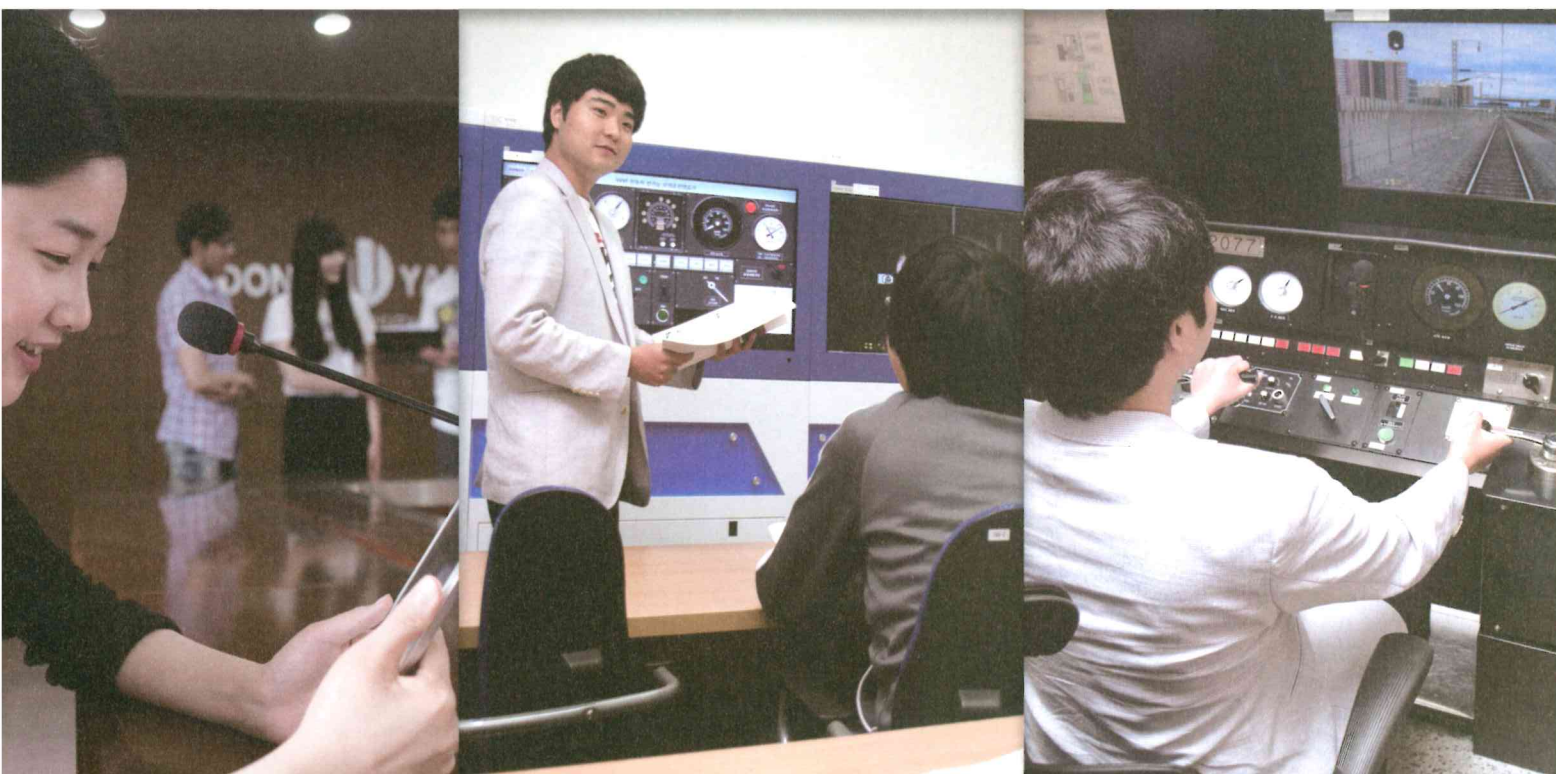

The vision of this department is ambitious, as the first bachelor's degree courses in this field. Learning their vision, such as building a subway system and a high speed train system throughout the nation and inter peninsula and the Asian continent train system, there are many open doors for their future career. To build a good foundation to achieve such vision, the department offers programs such as railroad management and railroad traffic as well as information processing knowledge for building railroad information system and foreign language skills. It also has collaboration programs with railroad industry so that our students can learn current industry practices through field experience.

**Potential Career Fields** – Korean Railroad Corporation, 7 Subway Corporations in 6 Cities, Railroad-related Industry including Incheon Airport Railroad, Metro Line No.9, New Bundang Line and Yongin Light Rail, Korea Railroad Research Institute, Korea Transport Institute, Private Company, and more.

### Dept. of Railroad Drive & Control

There has been an increasing demand for a skilled workforce in efficient railroad system management and technology development. To meet such demand, the program focuses on the railroad operation and control related core technology and developing creativity for newer railroad systems. The training courses consist of railroad operation engineering, railroad signal control, railroad control, railroad safety management, and more. Field experience, such as railroad operation licensure, is implemented into their courses as well through cooperation with KORAIL Corporation and Seoul Metro.

**Potential Career Fields** – Korean Railroad Corporation, Seoul Metro, Seoul Metropolitan Rapid Transit Corporation, Seoul Metro Line No.9 Operation, KORAIL Airport Railroad, Incheon Metro, Busan Transportation Corporation, Daegu Railroad Corporation, Daejeon Railroad Corporation, Gwangju Railroad Corporation, Light Rail Operator, Railroad-related Business, Public Official, and more.

### Dept. of Rail Way Vehicle Engineering

This department cultivates professional engineers in charge of designing, manufacturing, operating and maintaining railroad cars. Under the instruction of real-world experts, its outstanding education is conducted for future railroad car design. Field experiences are a critical element throughout the coursework and they are provided at KORAIL sites by KORAIL car management teams, and other industry experts with over 25 years of experience. Our students conduct research projects in railroad technology through industry experience during their summer semester breaks. The department also encourages small group project activities and credit exchange programs with foreign universities.

**Potential Career Fields** – Korean Railroad Corporation, Seoul Metropolitan Subway Corporation, Seoul Metropolitan Rapid Transit Corporation, Incheon International Airport Railroad, Incheon Subway Corporation, Busan Transportation Corporation, Daegu Railroad Corporation, Daejeon Railroad Corporation, Gwangju Railroad Corporation, Private Company, Korea Railroad Research Institute, and more.

### Dept. of Railroad Civil Engineering

Thanks to the current booming trend of a high speed railroad system throughout the world, a workforce in research and development of related technology is in increasing demand. Rich opportunities of learning are found besides the coursework, such as academic conferences during semesters, special lectures during semester breaks, joint research projects with domestic or foreign prestigious universities and graduate schools.

**Potential Career Fields** – Public Official in Civil Engineering, Korea Infrastructure Safety Corporation, Korea Rail Network Authority, KORAIL, Seoul Metro, Seoul Metropolitan Rapid Transit Corporation, Busan Railroad Corporation, Daegu Railroad Corporation, Incheon Airport Railroad, Korea Expressway Corporation, Korea Land Housing Corporation, Private Company, and more.

### Dept. of Railroad Electric Communication

The department is operated with an objective of integrating railroad electric communication with IT, green railroad, and green growth. After graduation, our students' career fields are electricity, communication technology, signal, transfer technology, electronic communication technology and computation. So the coursework is focused on licensure related to railroad electricity and communication, and practical field training based on project performances. Study groups preparing for the railroad and public service examinations as well as character training programs prepare our students for their future career throughout their academic years.

**Potential Career Fields** – KORAIL, Seoul Metro, Seoul Metropolitan Rapid Transit Corporation, Busan Transportation Corporation, Daegu Railroad Corporation, Daejeon Railroad Corporation, Incheon Metro, Korea Rail Network Authority, KORAIL Airport Railroad, Seoul Metro Line No.9 Operation, Public Official, Military, Civilian Military Employee, Private Company, and more.

# Departments & Career

*The competitive edge at its highest level is from the specialized education at its finest stage.*

*DYU's field experience oriented education cultivates a competent expert, who will satisfy industry and our nation's desire!*

#### ● Dept. of Early Childhood Education

The basic curriculum of the department consists of systematic theories and practicum. The department features its high-tech educational equipment and facility, specially developed 'early childhood educator qualification system', and academic clubs. DYU was selected by the Ministry of Education, Science and Technology as an Outstanding University in the evaluation of early childhood. Our students qualify for a level 2 kindergarten teaching license upon their graduation and then move into a prep course for the public kindergarten teaching license examination to be able to pursue their teaching career in public kindergartens.

**Potential Career Fields** – Public / Private Kindergarten Teacher, Teacher in Nursery Facility, Child Counselor, Director of Nursery Facility, Director of Kindergarten, Director of Private Institute, Instructor in Private Institute, Early Childhood Educator, Nursery Industry, Research Institute, and more.

#### ● Dept. of Nursing

As the only Bachelor's degree programs in nursing in northern section of Gyeongbuk province, DYU is capable to conduct field related research under the intensive training instruction. The department also features top notch practice rooms similar to real world facilities. The department offers diverse programs, such as health education-related license programs, military scholarships and nurse officer programs, public services programs, and overseas employment programs. Our students can continue pursuing their career in nursing fields with DYU even after their graduation through various specialized nursing licensure programs, such as emergency nursing and pediatric nursing.

**Potential Career Fields** – Nurse Practitioner in University / General Hospital, Nurse Officer, Professional Nurse, Public Nursing Official, Health Service Public Official, Health Treatment Officer, Researcher, Nurse in Medical Room in Industrial Workplace, Business in Long-term Elderly Medical Care Center, Nurse in Medical Care Center and Nursery Facility, Health Educator, Overseas Employment, and more.

### Dept. of Public Health & Medical Administration

There are many fields in need of public health and medical human resources, such as related research institutes, national and public hospitals, and more. The department prepares our students to be competitive through industry collaborations, customized learning and field training, career advisory system, and the integrated curriculum of nursing coursework and licensure. Our students are fully supported with prep courses to pursue careers in the public health field.

**Potential Career Fields** – Public Services, Hospital Administrator, Medical Record Administrator / Coordinator, Medical Administration Officer, Researcher in Public Corporation (National Health Insurance Corporation and Korea Labor Welfare Corporation), Health-related Industry, Association and Organization, Evaluator for Medical Insurance Claim, and more.

### Dept. of Practical Physical Education

The department provides quality education in professional theories and through the scientific method in its high tech facility to stay competitive in the era of lifetime sports. Its facility features a natural turf soccer field, a urethane track (400m), tennis courts, judo studios, taekwondo studios, weight training rooms, an aerobics room, an indoor gym and more. Our students contribute to help build DYU's athletic competitive edge, focusing on four main sports: badminton, boxing, taekwondo, and track and field. All of our students earn at least one type of a "sports-for-all" instructor's license before their graduation.

**Potential Career Fields** – Sports-for-all Instructor, Instructor of Sports for Handicapped, Sports Instructor in Company, School, Children/Women's Organization, Social Welfare Facility, Professional Trainer in Private Gym, Swim Instructor, Lifeguard, Aerobics Instructor, First Aider, Recreation Instructor, and more.

### Dept. of Computer Information Warfare

The department has great prospects as it was selected as an Outstanding University in IT Dept. Support Project by the Ministry of Information and Communication. An IT security expert in the field of information technology and information protection technology is particularly recognized to be one of the best future careers. Its focus is on cultivating professionals in an information protection field, military officers in information warfare, and qualified technicians in the IT field. Its intensive computer technology programs include information protection and national defense.

**Potential Career Fields** – Information Protection Business, IT Business, Military officers for ROTC and Military Scholarship Students, Public services, Civilian Employee of Military Force, National Research Institute, Defense Industry (exemption from Military Service), Venture, and more.

*We believe High-tech Facilities and specialized training labs should be a basic element to build the competitive edge! DYU's practical education, strengthened with theories and field training, will brighten your future!*

# Departments & Career

*DYU's human care education is delivered in a scientific method!*

*You will build your competitive edge through our systematically customized programs and field training.*

#### Dept. of Electro-magnetic Technology

The Dept. of Electro-magnetic Technology implements specialized education, cooperating with related institutions and the defense industry. Our graduates become technical officers for operating electro-magnetic weapons, civilian employees of military force in an electronics/electricity and communication field, skilled workers in defense industry, researchers in military-related research institutions, professionals in promoting national defense. Our department educates our students on how to develop, operate and evaluate various electro-magnetic weapons including electro-magnetic controllers through working closely with military-related research institutions and defense industry.

**Potential Career Field** – Defense-related Military and Government Agency (Civilian Employee of Military Force), Defense-related Research Institution (Agency for Defense Development and Defense Agency for Technology and Quality), Defense Industry (Samsung Teles, Rotem, Hanhwa, Samsung Techwin, Wia, Nexwon Future, Daewoo Precision), and more.

#### Dept. of Information & Communication Engineering

The department aims at cultivating professionals who will a lead science and technology field based on low carbon, green growth and environmental efficiency. Our faculty consists of the professionals with the field expertise to provide specialized education in diverse fields, such as green IT, high-tech military technology and mobile communication. Our class rooms and labs include cutting edge equipment. Our practical education program, which features internship opportunities and student project led lectures, allows our students to become accustomed to industry practices.

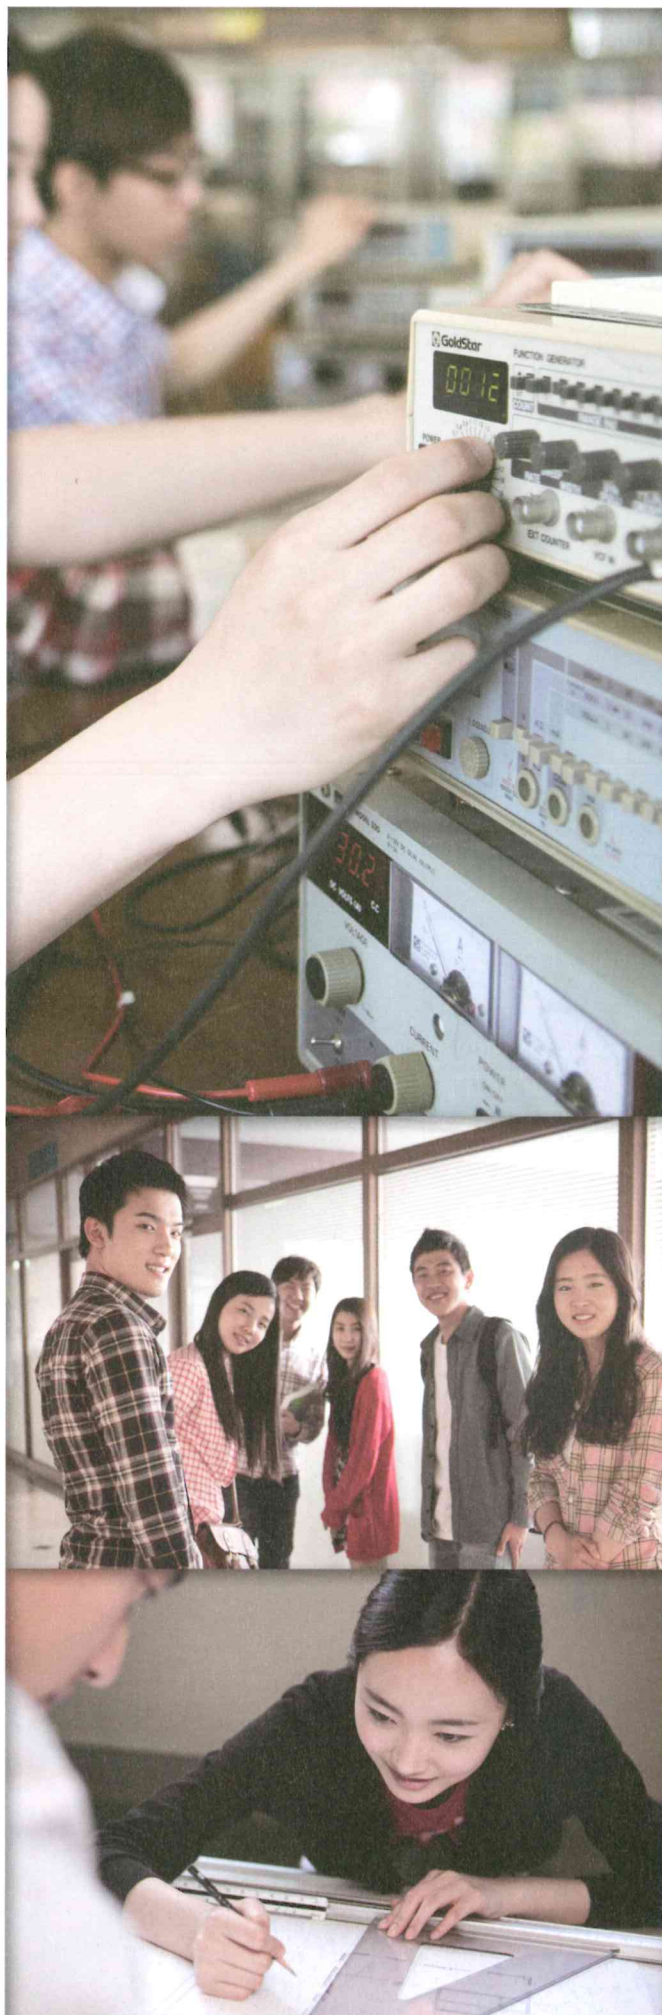

**Potential Career Fields** – Public Corporation, Public Official, Civilian Employee of Military Force, Military Officer, Research Institute, Broadcasting Station, KT, and more.

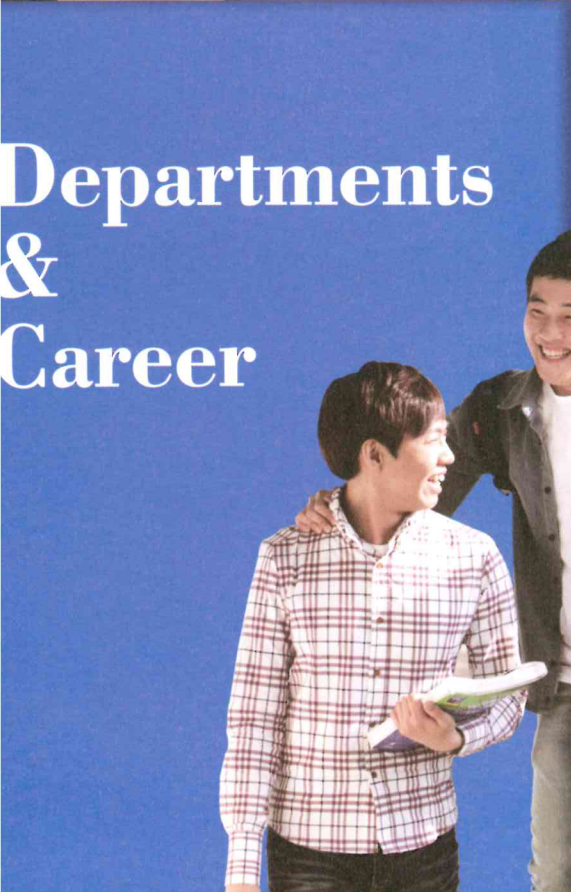

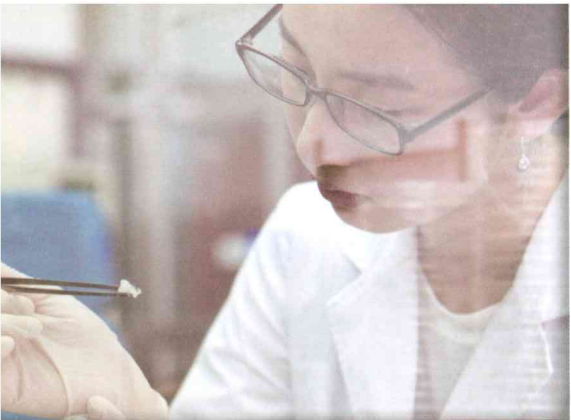

#### Dept. of Architectural & Interior Design

Architectural & Interior Design is a study combining architectural design and interior design. Our students learn creative design in basic courses and industry practices through industrial academic collaborations. Our faculty provides systematic and practical coursework, which has been proven in our students' record of winning prizes in architectural and interior design contests. With its dedicated career advisors, the department boasts the highest employment rate among universities of similar fields in Korea.

**Potential Career Fields** – Architectural Design Office, Interior Office, Construction Firm, Educational Institution, Lighting and Furniture Firm, Set Designer in Broadcasting Station, Home Coordinator, Housing Corporation, Real Estate Development and Architectural Consulting Firm, Architectural Design Research Institute, Government-run Business, Interior Designer, and more.

# Departments & Career

## Dept. of Chemical & Biomolecular Engineering

This is a unique engineering field, grafting chemical engineering with biotechnology, and studies safe and efficient manufacturing processes. The major fields are chemical engineering, biotechnology, and environmental engineering. The chemical field studies materials, energy motion, chemical reaction, mechanism in separation and refinement of raw materials or products. The biotechnology field studies bio-reaction, cloning, and bio-cultivation. The environmental engineering field studies the elimination of hazardous materials and its conversion to useful materials.

**Potential Career Fields** – Government Agency, Public Official, Sam Hwan EN Tech, Daelim Industry, KRIBB, LG Laboratory, STX, Dongbu Hightech, SODIFF, Exergy Engineering, Hightech Engineering, Gyeongbuk Gas, Vitrosys, and more.

## Dept. of Jewelry & Metals

The jewelry industry is a high value creating industry which is divided into four major fields: jewelry design, jewelry processing, jewelry appraisal and marketing. Since our field is infused with artistic value appreciation and production technology. Students are required to possess creativity and scientific thinking skills. Thus our programs incorporate theoretical and practical learning and allow our students to go through the process of designing, producing, and marketing jewelry products. Our students can also expand their experience in real world marketing settings, by visiting foreign jewelry shows and through exchange programs with China.

**Potential Career Fields** – Jewelry Designer, Jewelry Manufacturing, Jewelry Processing, Trading, Import / Export, Department Store, Bank, Wholesale / Retail, Jewelry Appraisal, Distribution, Jewelry-related Private Education Center, and more.

## Dept. of Cinema & Theatre

Culture and Entertainment business is an already advanced industry! Our students who intend to be in this industry have benefited from our versatile curriculum and our faculty with industry leading expertise. They can also build field experience via various venues, such as the department's own mini theater, "Poonggimullan Center", student ventured film production line, Yeongju radio station FM 89.1, DYU video news and a teaching certificate course.

**Potential Career Fields** – Stage Actor / Actress, Play Producer, Movie Star, TV Star, Musical Actor / Actress, Voice Actor / Actress, Model, Announcer, Reporter, MC, Gagman, Event Producer, Event Actor / Actress, Stage Technician, Producer, Director, Video Technician, Radio DJ, Scenario Writer, and more.

A photograph of a man in a grey t-shirt and dark pants walking from left to right in the foreground. In the background, a woman in a light blue button-down shirt and dark pants is sitting on a ledge, smiling and working on a laptop. The setting is a bright, modern interior with large windows and a polished floor that reflects the figures.

# Take your goal to the next step.

Graduate School of General Studies  
Graduate School of Information  
Graduate School of Education

Those who have a definite goal in their minds do not waste their time, not even a minute.

Future of Korea is formed in your efforts when you take meaningful steps toward your goal, society, and our nation.

**DYU partners with you for the brighter future of Korea.**

# Graduate Schools

*A path to professionalism requires a broader and more in-depth knowledge! DYU graduate schools take professionalism to the next level.*

## Graduate School of General Studies

The Graduate School of General Studies consists of master's course and doctor's course in engineering, humanities & social science, arts and physical education field. The coursework is focused on research work closely tied with industrial practices, which takes our students' expertise to the next level. Along with academic achievement, DYU's character building programs are utilized to cultivate creativity, professionalism, a practical mindset, and leadership of our students to help them become leaders in their fields.

**Master's Course** – Electromagnetic Control, Information & Communication Engineering, Computer Engineering, Architectural Engineering, Railroad Civil Engineering, Chemical & Biomolecular Engineering, Business Administration, Administration, Chinese/Korean Language Culture, Computer Graphic Design, Social Physical Education  
**Doctor's Course** - Electromagnetic Control, Information & Communication Engineering, Computer Engineering, Construction Engineering, Business Administration, Administration, Social Welfare

## Graduate School of Information

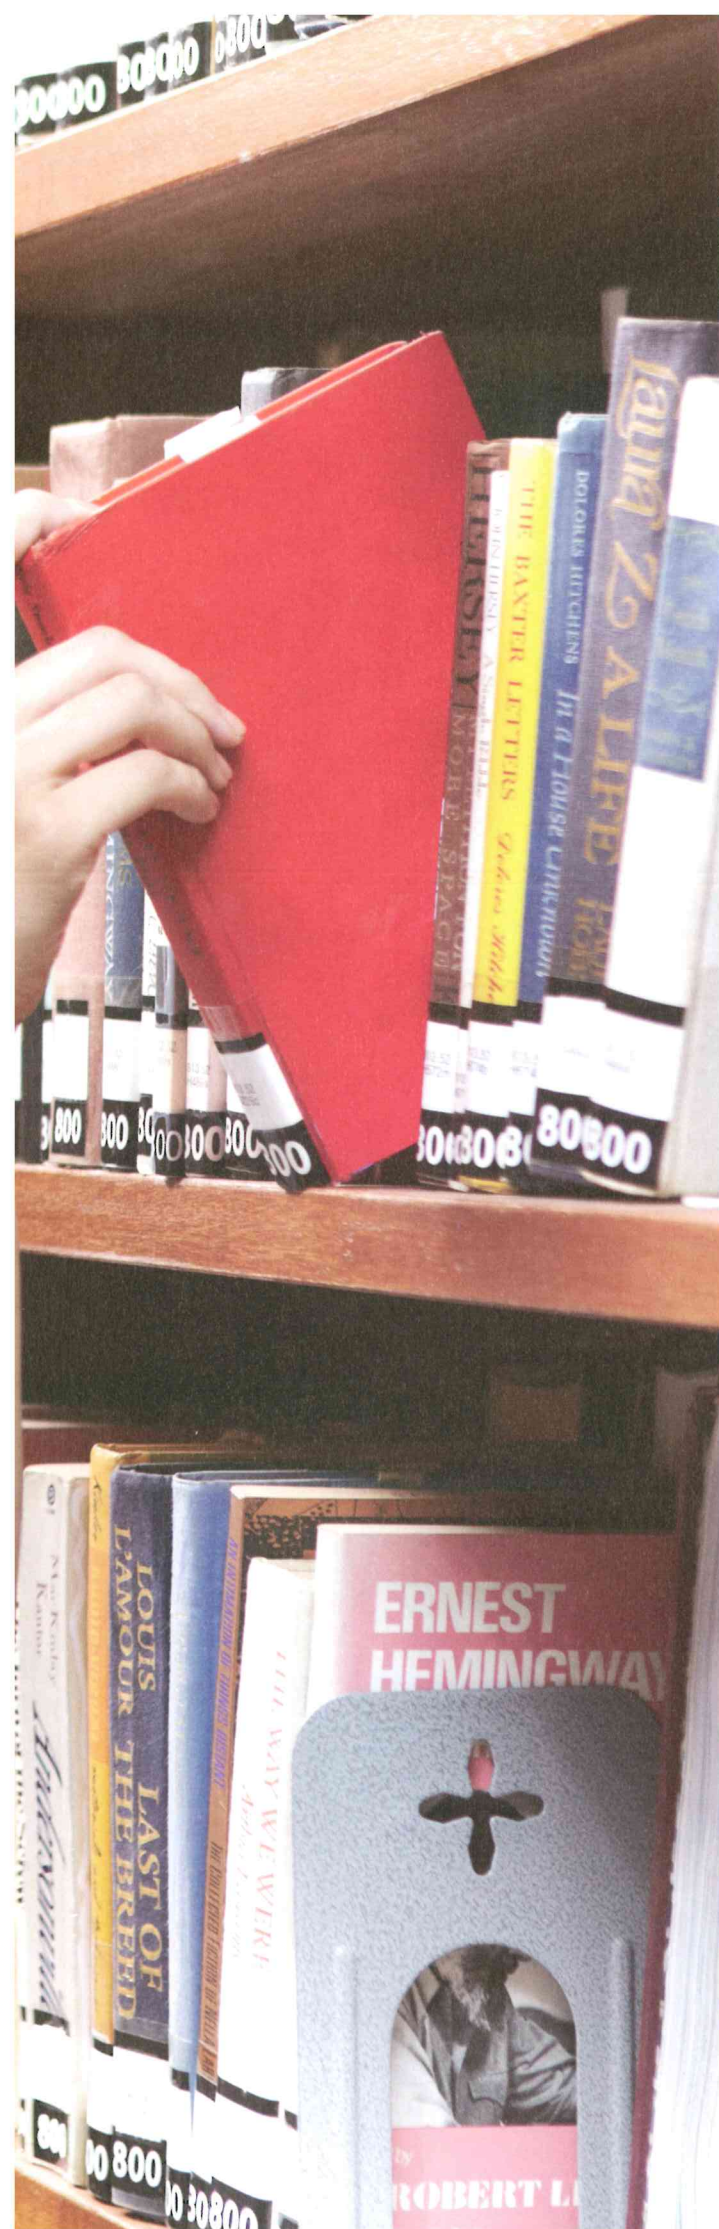

The programs' purpose is to cultivate high level professionals in social welfare and information management, which is a strategic industry in our nation. The course work encompasses more specialized diverse theoretical studies and scientific application. DYU's master's programs in this field are very specialized, which may not yet have been introduced by other schools.

**Master's Course** – Information Management, Social Welfare, Traffic Safety Management, Defense Technology, Railroad System, Railroad Traffic Policy, Railroad Electric Communication Engineering

## Graduate School of Education

This specialized graduate school cultivates leading experts in education fields, such as educational theorists, educational administrators, and education practitioners. The program promotes our students' active learning by incorporating industry practices as well as theoretical studies, with the intent to apply them in a creative and impeccable way. DYU's character training edifies our students' professionalism and competency to become well rounded and respected education experts.

**Master's Course** – Educational Administration, Computer Education, English Education, Mathematics Education, Arts Education, Early Childhood Education
